

EventSubscriber

```
classDiagram
    class EventSubscriber
    class AppBundleDoctrineUserListener["AppBundle\\Doctrine\\UserListener"]
    AppBundleDoctrineUserListener --|> EventSubscriber
```

The diagram illustrates a class inheritance relationship. At the top is a white rectangular box with a thin black border containing the text 'EventSubscriber'. Below it is a gray rectangular box with a thick black border containing the text 'AppBundle\\Doctrine\\UserListener'. A solid blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that 'AppBundle\\Doctrine\\UserListener' inherits from 'EventSubscriber'.

AppBundle\\Doctrine  
\\UserListener
